Giovanni Riboli

Creating well-being for over 20 years.

Founded in southwestern France, the company has established itself throughout the country thanks to its network of nearly 40 exclusive stores and a factory in Europe.

It also stands out for its research and design office, its dynamic sales department, and its responsive after-sales service.

These strengths make Giovanni Riboli a key player in the spa market today, offering quality solutions for the comfort and relaxation of its customers.

R.1

This spa from the Relax Collection is a true haven of well-being. Equipped with **the Balboa VL401-GS system**, it offers intuitive and precise control of all its features. Its **3 kW EcoEnergie® titanium heater** allows for rapid temperature rise while optimising energy consumption.

In terms of performance, this spa is fitted with a **2.5 HP massage pump**, perfect for delivering powerful and relaxing massages. Its high-performance filtration system, with a **capacity of 10 m³ per hour**, ensures that the water remains clean and crystal clear at all times. For even more effective disinfection, this model includes **UV protection**, renowned for its natural efficiency in purifying water.

Energy and thermal efficiency are also guaranteed thanks to reinforced thermal **insulation** and a secure isothermal cover. Equipped with a key lock, it retains heat while minimising energy loss.

Finally, for absolute well-being, this spa incorporates **chromotherapy** with **soothing light effects**. It rests on **a base made of ABS**, a robust and durable material that ensures perfect stability and long-lasting performance.

Technical specifications

System	Balboa VL401-GS
Heater	Titanium 3Kw

Aesthetic features

Finish	Black composite
Colour	White

Water quantity
300 liters

Spa size
200 x 100 x 74 cm

Number of jets
21 massage jets

Number of seats
1 loungers

Weight
200kg (empty)
500kg (full)

R.2

This spa is designed to offer a premium relaxation experience, thanks to its **29 stainless steel jets**, which deliver an effective and precise massage. **The Balboa VL401-GS system** allows for simple and intuitive control, while **the 3 kW EcoEnergie® titanium heater** ensures rapid and energy-efficient heating.

With its two reclining seats, this spa is ideal for enjoying a moment of pure relaxation. **Its 2.5 HP massage pump and 10 m³/h filtration system** keep the water clean and pleasant, reinforced by **UV antibacterial treatment** that provides natural and optimal disinfection.

Enhanced thermal **insulation** and an insulated cover with lock effectively retain heat. In addition, **chromotherapy** creates a soothing atmosphere, while **the ABS base** provides stability and durability.

This spa perfectly combines performance, comfort, and optimal well-being.

Water capacity
400 liters

Number of jets
31 massage jets

Spa size
200 x 130 x 75 cm
